Disclaimer: The objective of this palm oil mill list is to increase transparency of Unilever's palm oil supply chain. We are conducting this work on traceability in partnership with our suppliers. The disclosed palm oil mill data and parent company / group linkages is correct to the best of Unilever's knowledge at the time of publication and represents a snapshot of our supply chain for 2022 based on data collected for FY2022. Although we have made considerable effort to validate the disclosed data, we cannot guarantee its full accuracy and therefore welcome any corrections that may be needed. An additional 141 palm oil mills were declared by our suppliers in 2022 but are suspended by Unilever due to grievances brought to our attention alleging non-compliance or due to the fact that it could not be confirmed that these mills were in compliance with the [Unilever People and Nature Policy \(UPNP\)](#) at a group level and/or the [Unilever Responsible Sourcing Policy](#). Please note that we are not making any accusations of legal wrongdoing with this separate suspended mill list but are sharing that we have sight of data that indicate that certain supply sources are not in compliance with the UPNP. It is our intention to share accurate and credible data. Should there be any reliable data that is in conflict with ours, then we ask that you share it with us, so that we can assess and make the appropriate corrections. We are working with our suppliers to ensure that these suspended mills are not part of our supply unless appropriate remediation plans have been agreed and are being implemented. The list of suspended palm oil direct suppliers, suspended oil palm growers, and suspended palm oil mills can be found on the [Unilever website](#).
